

Active ingredients

UVA/UVB filters: Ultra-advanced mineral filters and non-mineral filters expertly combined to provide high level UVA/UVB protection with an elegant skin-feel and look.

Photobiological protectants: Fernblock™: Natural fern extract rich in polyphenols and flavonoids, combined with Green Tea extract, provides biological photo-protection.

Protection enhancers: Ultrasomes; naturally derived endonucleases help provide DNA protection and repair. Sunspheres; increase the effectiveness of the UVA/UVB filters.

Directions for use

Apply in the morning to complete your anti-ageing skincare regime or as directed by your aesthetic professional. Spray and then gently massage until absorbed ensuring complete coverage of the exposed, non-facial/décolleté, body areas. Water resistant, reapply every 2-3 hours during periods of high sun exposure.

Heliocare Compact SPF 50 Light/Brown 10g

Heliocare Oil-Free Compact SPF 50 Light/Brown 10g

Ultra-smooth, easy-apply facial foundation/make-up sunscreens. Providing advanced UV protection with skin tone enhancement and correction. The creamy smooth make-up enables daily use and is ideal when applied after aesthetic procedures or on areas of uneven skin tone where make-up cover is required. They are available in light and brown shades for different skin tones.

Heliocare compact is designed for normal and dry skin. Heliocare oil-free compact has a mattifying effect and is ideal for combination, oily and spot prone skin.

Active ingredients

UVA/UVB filters: Heliocare compact: Ultra-advanced mineral filters provide high level UVA/UVB protection with an elegant skin-feel and look.

Heliocare oil-free compact: Ultra-advanced photostable non-mineral filters provide high level UVA/UVB protection with an elegant skin-feel and look.

Photobiological protectants: Fernblock™: Natural fern extract rich in polyphenols and flavonoids, combined with Green Tea extract, provides biological photo-protection.

Directions for use

Apply in the morning to complete your anti-ageing skincare regime or as directed by your aesthetic professional. Heliocare compacts are also great to use during the day for UV protection and make-up top-ups.

Using the sponge supplied gently apply until complete coverage of the face and the desired skin tone enhancement is achieved.

Non-comedogenic and water resistant, reapply every 2-3 hours during periods of high sun exposure.

Heliocare
advanced anti-ageing UV protection

Heliocare - advanced anti-ageing UV protection

Whilst sunlight is essential for life, over-exposure is the greatest challenge facing our skin.

Sun or photo-damage is caused by ultraviolet radiation (UV) in the forms of UVA and UVB.

UVA makes up 95% of UV; it penetrates deep into the dermis and damages skin, even on cloudy days and in winter: UVA accelerates ageing of the skin by triggering free radicals or reactive oxygen species (ROS) that damage collagen, elastin and the underlying skin architecture. Furthermore it can cause pigmentation problems, skin reactions and most seriously it reduces the skin's natural defence mechanisms and can cause skin cancer.

UVB only penetrates the upper epidermal layer of the skin and is more prevalent on sunny days and during the summer. It tans the skin but can rapidly cause reddening, burning and epidermal damage and most seriously UVB also reduces the skin's natural defence mechanisms and can cause skin cancer.

Heliocare – The Aesthetic Professional's UV protection range.

Heliocare – The only UV protection range to contain Fernblock™ Photoimmunoprotection Technology; advanced defence - on the skin and from within.

Fernblock
Photoimmunoprotection
Technology

NEW Heliocare Oral Capsules (60 capsules)

Heliocare Oral Capsules, new to the UK, have been proven to provide sun protection of the skin from within. Containing the unique and patented Fernblock™, a natural plant extract from the South American Polypodium fern it provides powerful skin specific anti-oxidant activity, helping protect the skin from UV damage. Clinical studies

have proven that Heliocare Oral Capsules can help reduce skin reddening, skin "sunburn cells", DNA damage and the "prickly heat" symptoms of itching and discomfort.

Active ingredients

Photobiological protectants: Fernblock™ 240mg: Polypodium leucotomus natural fern extract, rich in polyphenols and flavonoids provide skin and cell damage protection.

Green Tea Extract and Betacarotene provides additional biological photo-protection.

Directions for use

One a day in the morning to help prevent the signs of photo-ageing. Two a day in the morning during periods of high UV exposure (ideally 15 days prior to the high exposure, during the high exposure and 15 days after the period of high exposure).

Heliocare Oral Capsules are not a replacement for regular use of topical sunscreens. Combine with Heliocare broad spectrum UVA/UVB topical sunscreens applied to the skin.

NEW Heliocare Silk Gel SPF 30 40ml

New Heliocare Silk Gel is designed for "everyday lifestyle" use. It provides advanced UVA anti-ageing protection, and a silky smooth feel on the skin with its "high-tech comfort touch".

Active ingredients

UVA/UVB filters: Ultra-advanced mineral filters and non-mineral filters, featuring Uvinol A-Plus the most advanced organic UVA filter, maximise anti-ageing protection.

Photobiological protectants: Fernblock™:

Natural fern extract rich in polyphenols and flavonoids, combined with Green Tea and Vitamin E extract, provides biological photo-protection.

Protection Enhancers: Ultrasomes; naturally derived endonucleases help provide DNA protection and repair. Sunspheeres; increase the effectiveness of the UVA/UVB filters. Phytosphingosines; provide anti-inflammatory and anti-microbiological protection.

Directions for use

Apply in the morning to complete your anti-ageing skincare regime or as directed by your aesthetic professional. Gently massage until absorbed ensuring complete coverage of the face and décolleté. Non-comedogenic and water resistant, reapply every 2-3 hours during periods of high sun exposure.

Heliocare Cream SPF 50 50ml

Ultra-smooth, easy-apply, advanced formulation. Heliocare Cream is specifically designed for normal and dry skin.

Active ingredients

UVA/UVB filters: Ultra-advanced mineral filters synergistically combined with photostable non-mineral filters

provide high level UVA/UVB protection with a moisturising skin-feel and look.

Photobiological protectants: Fernblock™: Natural fern extract rich in polyphenols and flavonoids, combined with Green Tea extract, provides biological photo-protection.

Directions for use

Apply in the morning to complete your anti-ageing skincare regime or as directed by your aesthetic professional. Gently massage until absorbed ensuring complete coverage of the face and décolleté. Non-comedogenic and water resistant, reapply every 2-3 hours during periods of high sun exposure.

Heliocare Gel SPF 50 50ml

Oil-free, easy-apply, light to the touch formulation, with an elegance that encourages daily use. Heliocare Gel is ideal for all skin types and particularly suitable for combination, oily and spot-prone skin.

Active ingredients

UVA/UVB filters: Ultra-advanced mineral filters and non-mineral filters expertly combined to provide high level UVA/UVB protection with an elegant skin-feel and look.
