## BROAD-SPECTRUM RESULTS OF PHLORETIN CF™

As revealed in controlled clinical studies, Phloretin CF™ shows reduction of fine lines, wrinkles, laxity, mottled texture, and age spots for dramatically healthier, stronger, and visibly radiant skin beginning as early as 4 weeks.

BEFORE TREATMENT

AFTER 4 WEEKS

**Observations:** Improvement in laxity and the appearance of mottled skin

BEFORE

AFTER 16 WEEKS

**Observations:** Reduction of erythema and hyperpigmentation

BEFORE TREATMENT

AFTER 16 WEEKS

**Observations:** Improvement in the appearance of wrinkles
