## Agera Anti Ageing Mini Skincare Kit

This great kit from Agera contains an Extra Gentle Cleanser, Ultra Moisturising Repair, Ultra Performing Sunscreen (SPF25), Intensive MagC Gel and an Evening Peptide Complex. These products are all in mini sizes, making them an ideal travel pack for holiday-goers this summer. The products are great for most skin types, but the kit would be more suited to those with mature or aged skin.

This will be a great retail item which is sure to fly off your shelves, particularly if your clients have already experienced Agera skincare through your treatments.
