

Lumixyl System Use Chart

All patients must start use of the system at a level 1 and can progress to subsequent usage levels based on their tolerability. Each level represents increased frequency of use of the GlycoPeel 20 (20% Glycolic Acid) product.

		Level 1		Level 2		Level 3		Level 4	
		All Users start at this level. Recommended for all Fitzpatrick Phototypes.		Consider this level after two weeks on level 1, depending on the user's tolerability. Recommended for all Fitzpatrick Phototypes.		Consider this level after two weeks on level 2, depending on the user's tolerability. Recommended for Fitzpatrick Phototypes III and above.		Consider this level after two weeks on level 3, depending on the user's tolerability. Recommended for Fitzpatrick Phototypes III and above.
