

Will RevitaLash® Advanced give my eyelashes more curl?

Many of our customers have noticed that, after using RevitaLash® Advanced, their eyelashes show a significantly more “youthful” curl. There are many ways in which the RevitaLash® Advanced formula improves the appearance, beauty and attractiveness of your natural eyelashes. This remarkable curl effect is one of the ways that RevitaLash® Advanced will improve the beauty of your eyelashes. A beautiful curl to your lashes will certainly enhance their attractiveness!

How long do I have to use RevitaLash® Advanced?

With your first bottle of RevitaLash® Advanced, we are confident you will reach your goal of having more beautiful, attractive eyelashes. In order to maintain the natural beauty of your eyelashes, we recommend that you continue to use RevitaLash® Advanced at least 2 to 3 days per week.

Length of use for one tube of RevitaLash® Advanced

When used as directed, one tube of RevitaLash® Advanced (3.5 mL) lasts approximately 6 months. The expiration date for RevitaLash® Advanced is one year upon opening and two years if unopened.

What if I discontinue use of RevitaLash® Advanced?

With your first bottle of RevitaLash® Advanced, we are confident you will reach your goal of having more beautiful eyelashes. In order to maintain the natural beauty of your eyelashes, we recommend that you continue to use RevitaLash® Advanced daily at least 2 to 3 days per week. If you discontinue use of RevitaLash® Advanced Eyelash Conditioner, your eyelashes will gradually return to their original appearance.

Is RevitaLash® Advanced safe to use on lower lashes?

Developed by an ophthalmologist, the formula for RevitaLash® Advanced Eyelash Conditioner is composed of several different functional cosmetic ingredients, all in specific proportions, which together contribute to the improved attractiveness, appearance, and beauty of your natural eyelashes.

RevitaLash® Advanced is safe for use on both the upper and lower eyelashes. However, if you use RevitaLash® Advanced on your lower eyelashes, please use only a small amount of the product so the product stays where it is applied.

As a helpful reminder, we recommend that you be careful not to over-saturate the RevitaLash® Advanced application brush. Remember that you only need to apply a small quantity of RevitaLash® Advanced daily to enhance the beauty and improve the attractiveness of your natural eyelashes.

Can Men use RevitaLash® Advanced?

Yes. RevitaLash® Advanced improves the attractiveness of both women and men's natural eyelashes.

If RevitaLash® Advanced Gets Into Your Eye

Because RevitaLash® Advanced is used around the eyes; we have taken care to formulate our product with ingredients that have excellent safety profiles. In addition, our tests have shown that the formula for RevitaLash® Advanced is a "no-drip" product containing a viscosity agent, and, when used as directed, RevitaLash® Advanced does not get into the eyes and, therefore, should not have any physiologic effect on your eyes. However, if a small quantity of RevitaLash® Advanced accidentally gets into your eye, we recommend that you lightly splash a little tap water in the eye in order to dilute and rinse away the RevitaLash® Advanced.

As a helpful reminder, we recommend that you be careful not to over-saturate the RevitaLash® Advanced application brush. Remember that you only need to apply a small quantity of RevitaLash® daily to enhance the beauty and attractiveness of your natural eyelashes.

Can children use RevitaLash® Advanced?

The safety of RevitaLash® Advanced has been demonstrated in multiple studies conducted by independent research laboratories. RevitaLash® Advanced has been shown in these tests to be safe to the skin and to eyes in adult study subjects; however, none of the subjects in these studies was under 18 years of age. As a precaution, therefore, we recommend that RevitaLash® Advanced not be used by children under the age of 18

Wearing Mascara after applying RevitaLash® Advanced

When used as directed, RevitaLash® Advanced should not interfere with mascara use. However, if you use multiple cosmetic eye products, it is important to thoroughly clean your skin to avoid clogged pores that can cause irritation.

False Eyelashes

When used as directed, RevitaLash® Advanced is safe for use with eyelash extensions or false eyelashes.

Permanent Make Up and RevitaLash® Advanced

RevitaLash® Advanced should not affect your permanent eyeliner.

If you have just recently finished getting your permanent make up application, please make sure the tattooing has completely healed and consult with your tattoo consultant or physician prior to using RevitaLash® Advanced.

Use on Eyebrows

RevitaBrow® is a product which we have specially formulated to quickly and easily help you obtain more beautifully shaped eyebrows. RevitaBrow® has a custom-designed applicator to make eyebrow beautification simple and precise. Apply RevitaBrow® directly to your eyebrows in the area where

you desire your eyebrows to appear more attractive and beautiful. Within weeks your natural eyebrows will appear more lush, youthful, and beautiful.

Hair Advanced by RevitaLash®

Since its founding in 2006, Athena Cosmetics has created several new, exciting products to our line of innovative cosmetics; including Hair Advanced by RevitaLash®.

Hair Advanced by RevitaLash® is a unique hair conditioner that fortifies, strengthens, and enhances the appearance and attractiveness of your hair.

Hair Advanced by RevitaLash® improves the appearance of thin, fragile looking hair. Results may vary; some will see improved appearance after only 2 weeks of daily use, while it may take others longer to see desired improvement in the attractiveness of their hair.

Hair Advanced by RevitaLash® is not a treatment for any medical disease, medical condition, or the “aging process,” but rather, Hair Advanced by RevitaLash® is a cosmetic product which will improve the look, the feel, the appearance, and the attractiveness of your natural hair.

New Products

Our Research and Development team is actively working on new, unique, innovative, safe, high quality cosmetic products to bring to the public.

Contact Lenses

Our tests have shown that the formula for RevitaLash® Advanced is a “no-drip” product containing a viscosity agent, and, when used as directed, RevitaLash® Advanced does not get into the eyes and, therefore, should be safe for use with contact lenses.

Use of RevitaLash® Advanced By People With Cataracts

Our tests have shown that the formula for RevitaLash® Advanced is a “no-drip” product containing a viscosity agent, and, when used as directed, RevitaLash® Advanced does not get into the eyes and, therefore, should not have any physiologic effect on your eyes. The RevitaLash® Advanced formula has an excellent safety profile; however, as a precaution, if you have cataracts or are concerned about developing cataracts, we advise you to consult with your physician or ophthalmologist.

Use After Cataract Surgery

Our tests have shown that the formula for RevitaLash® Advanced is a “no-drip” product containing a viscosity agent, and, when used as directed, RevitaLash® Advanced does not get into the eyes and, therefore, should not have any physiologic effect on your eyes. The RevitaLash® Advanced formula has an excellent safety profile; however, as a precaution, if you have had cataract surgery, we advise you to consult with your ophthalmologist prior to using RevitaLash® Advanced.

Dry Eye & Lasik Surgery

Our tests have shown that the formula for RevitaLash® Advanced is a “no-drip” product containing a viscosity agent, and, when used as directed, RevitaLash® Advanced does not get into the eyes and,

therefore, should not have any physiologic effect on your eyes. The RevitaLash® Advanced formula has an excellent safety profile; however, as a precaution, if you have had LASIK surgery or if you use artificial tear drops for dry eyes, as a precaution, we advise you to consult with your ophthalmologist.

Use By People With Glaucoma

Our tests have shown that the formula for RevitaLash® Advanced is a “no-drip” product containing a viscosity agent, and, when used as directed, RevitaLash® Advanced does not get into the eyes and, therefore, should not have any physiologic effect on your eyes. The RevitaLash® Advanced formula has an excellent safety profile; however, as a precaution, if you have glaucoma or if you suspect that you may have glaucoma, we advise you to consult with your physician or ophthalmologist prior to using RevitaLash® Advanced.

Changes in Colour of the Eye (Iris)

Our tests have shown that the formula for RevitaLash® Advanced is a “no-drip” product containing a viscosity agent, and, when used as directed, RevitaLash® Advanced does not get into the eyes and, therefore, should not have any physiologic effect on your eyes, including the color of your eyes (iris). However, as a precaution, if you have concerns, we advise you to consult with your physician or ophthalmologist prior to using RevitaLash® Advanced.

Discoloration around the Eye

Some RevitaLash® Advanced users have reported a mild darkening of the skin at the base of the eyelashes. The darkening was reported to fade after discontinuing use. If this is of concern to you, do not use RevitaLash® Advanced or, if you notice such discoloration and it bothers you, please discontinue use of RevitaLash® Advanced. In order to reduce the potential for skin discoloration, be sure to carefully follow the RevitaLash® Advanced “application directions” as pictured above in the FAQs.

Changes in Eye Pressure

Our tests have shown that, when used as directed, RevitaLash® Advanced does not get into the eyes and, therefore, should not have a physiologic effect on your eyes, including the intraocular pressure (IOP); however, as a precaution, if you have concerns about your intraocular pressure, we advise you to consult with your ophthalmologist prior to using RevitaLash® Advanced.

Breast Feeding and Pregnancy

The safety of RevitaLash® Advanced has been demonstrated in multiple studies conducted by independent research laboratories. RevitaLash® Advanced has been shown in these tests to be safe to the skin and to eyes in adult study subjects. However, none of the study subjects were pregnant or breast feeding. Therefore, while we have no scientific reason to believe that RevitaLash® Advanced poses a safety risk to women who are pregnant or breast feeding, as a precaution, we advise that you not use RevitaLash® Advanced if you are pregnant or breast-feeding without first consulting with your physician.

Chemotherapy

The safety of RevitaLash® Advanced has been demonstrated in multiple studies conducted by independent research laboratories. RevitaLash® Advanced has been shown in these tests to be safe to the skin and to eyes in adult study subjects. However, none of the study subjects were undergoing chemotherapy. While we have no scientific reason to believe that RevitaLash® Advanced poses a safety risk to men or women who are undergoing chemotherapy, it is advisable for any person undergoing chemotherapy to consult their physician before using any product. Therefore, as a precaution, we recommend that you consult with your physician before using RevitaLash® Advanced if you are undergoing chemotherapy.

Possible Allergic Reactions

First, please be sure that you are using RevitaLash® Advanced as directed on the package insert. Remember: only a small quantity of the product is needed to enhance the beauty of your natural eyelashes. RevitaLash® Advanced has been shown to be safe in multiple tests conducted by independent research laboratories. In the tests, a very small percentage of subjects experienced slight irritation; however, as with any cosmetic product, some individuals may be allergic to one or more ingredients in the product. If you know that you have a sensitivity or are allergic to any of the ingredients in RevitaLash® Advanced, or if you suspect that you may be allergic to any of the ingredients, do NOT use RevitaLash® Advanced. If you suspect that you may have had or are having an allergic reaction, stop using the product and consult a physician immediately.

Some RevitaLash® Advanced users have reported a mild irritation at the base of the eyelashes. If you experience such irritation, either reduce or discontinue the use of RevitaLash® Advanced Eyelash Conditioner until the irritation goes away. If the irritation persists, discontinue use completely and consult your physician. In order to reduce the potential for irritation, be sure to carefully follow the RevitaLash® Advanced “application directions” as pictured above in the FAQs.

Ingredient Questions

Developed by an ophthalmologist, the formula for RevitaLash® Advanced Eyelash Conditioner is composed of several different functional cosmetic ingredients, all in specific proportions, which together contribute to the improved attractiveness, appearance, and beauty of your natural eyelashes.

All of the products in the RevitaLash® product line have been tested and have excellent safety profiles. Periodically, we may make changes to the formula of one or more of our products in order to improve their intended use of promoting attractiveness, improving appearance, and enhancing beauty. In June of 2011, Athena Cosmetics introduced to the marketplace our latest, most improved eyelash beautification formula: RevitaLash® Advanced.

All of the ingredients in RevitaLash® Advanced are listed on the box. Please see your RevitaLash® Advanced box for a complete list of ingredients. If, for some reason, you do not have this box, the ingredients are as follows: Water/Aqua/EAU, Serenoa Serrulata Fruit Extract, Panax Ginseng Root Extract, Dechloro Dihydroxy Difluoro Ethylcloprostenolamide, Biotin, Carmellia Oleifera Leaf Extract, Swertia Japonica Extract, Biotinyl Tripeptide-1, Octapeptide-2, Calendula Officinalis Flower Extract,

Triticum Vulgare (Wheat) Protein, Phenoxyethanol, Chlorphenesin, Glycerin, Cellulose Gum, Butylene Glycol, Pentylene Glycol, Phosphoric Acid, Disodium Phosphate.

RevitaLash® Advanced is intended solely to improve the appearance, promote the attractiveness, and enhance the beauty of your natural eyelashes.

Changes to the RevitaLash® formula

Developed by an ophthalmologist, the formula for RevitaLash® Advanced Eyelash Conditioner is composed of several different functional cosmetic ingredients, all in specific proportions, which together contribute to the improved attractiveness, appearance, and beauty of your natural eyelashes.

All of the products in the RevitaLash® line-up of products have been tested and have excellent safety profiles. Periodically, we may make changes to the formula of one or more of our products in order to improve their intended use of promoting attractiveness, improving appearance, and enhancing beauty. In June of 2011, Athena Cosmetics introduced to the marketplace our latest, most improved eyelash beautification formula: RevitaLash® Advanced.

RevitaLash® Advanced is intended solely to promote attractiveness, improve appearance, and enhance the beauty of your natural eyelashes.

Does RevitaLash® Advanced contain a “drug” ingredient?

No. All of the ingredients in RevitaLash® Advanced are functional cosmetic ingredients that serve a cosmetic purpose.

Is RevitaLash® Advanced FDA approved?

No. Cosmetic products are not cleared or approved by the FDA. It is the responsibility of the cosmetic manufacturer to substantiate the safety of their product and to verify that their claims are accurate and truthful. RevitaLash® Advanced has been tested in numerous studies by reputable, independent research laboratories and in every case been found to be safe. An independent ophthalmologist and an independent dermatologist have also reviewed the safety information on RevitaLash® Advanced and concluded that RevitaLash® Advanced is a safe cosmetic product.

Ingredients RevitaLash® Advanced does NOT contain:

RevitaLash® Advanced does NOT contain any of the following ingredients: quaternium, benzalkonium chloride, ammonium laurel and laureth sulfates, hormones, methyl parabens, urea or uric acid, bimatoprost, paba or propylene glycol.

Animal Testing and Animal Ingredients

There are no animal by-products in RevitaLash® Advanced. None of the safety tests conducted using RevitaLash® Advanced involved animal testing. Production of RevitaLash® Advanced is “cruelty-free.”
