All Piori products are formulated to read your skin and decode its very specific needs for replenishment, hydration, protection and recovery. By using these remarkable advancements in biotechnology, our formulas respond and deliver results for you and your most ideal skin.

That's Adaptive Skincare...and it's all you. Only you.

PRIORI[®]
SKIN DECODED

SCIENCE. IT'S A BEAUTIFUL THING.

Skin decoded.

It sounds scientific—because it is. (As it should be.) Each person's skin chemistry is different and this is why "one size fits all" skincare doesn't work perfectly for you and your unique needs. Puri is skin science created to respond to your individual environment, nutrition and genetics. Our products decode your skin's individual needs and voila! Your skin responds in ways you've never seen before...because it makes beautiful sense. Let's do this.

ADAPTIVE SOLUTIONS.
