BAPSCARCARE **GEL**: SCAR GEL, THE NEW GENERATION

BAP SCAR CARE Gel is the new generation silicone gel for the treatment of old and fresh scars. This gel does not feel greasy and is enriched with Vitamin E. Ideal for smaller scars on the face and neck.

- Feels silky soft
- Non-greasy, non-sticky
- Dries immediately
- 100 % invisible
- Easy to apply
- Works anywhere on the skin

Survey

BAPSCARCARE **GEL**: THE FIRST CHOICE IN USE AND COMFORT ¹

Following a survey between BAP SCAR CARE Gel and the most widely used silicone gel at this time reveals that as many as 99% of the respondents preferred BAP SCAR CARE Gel. The results are set out below:

Which silicone gel do you prefer, and why?	
As many as 99% of all respondents prefer BAPSCARCARE GEL	What the respondents said about BAPSCARCARE GEL : <ul style="list-style-type: none">- Feels silky soft- Is not greasy or sticky- Dries immediately- 100% invisible- Easy to apply
conclusion BAPSCARCARE GEL : the first choice in use and comfort	

Methodology

The survey was performed with 189 respondents who were asked to state which silicone product (A or B) they preferred as a treatment. They were also asked to motivate their choice. The identities of the test packs were hidden. The silicone gels were applied to the hand one after the other so that the respondents could experience the difference. The respondents included plastic surgeons, dermatologists, skin therapists, wound care nurses and randomly selected subjects.

WHEN DO YOU RECOMMEND BAPSCARCARE **GEL** ?

- Ideal for small scars
- Scars on face and neck
- Old and fresh scars
