

Skin Accumax™ Testimonials

Ellie, 16, from Manchester

“My skin used to be inflamed and really sore. I wouldn’t even have answered the door without make-up. It really affected my social life, sometimes it was so bad I couldn’t face going out.

“Skin Accumax has totally changed my life. I feel so much more confident and I’m getting loads of compliments. My skin is glowing!

Katie, 26, from USA

“Skin Accumax™ has made a huge difference to my complexion. I’ve received at least 5 compliments this week alone! People are really starting to notice and I’m so happy. It has really boosted my self esteem and I can’t thank you enough.”

Emma, 37, from Farnborough

“Once I started taking Skin Accumax™, I was really shocked by how quickly it took effect. I have worked really hard in the past to solve monthly breakouts but ended up with scars and redness that lasted weeks. I feel really confident with my skin now and don’t dread that time of the month.”

Elinor, 24, from Harrow

“I have had problematic skin for a long time now with the main area of concern being my cheeks. I can’t squeeze my congested areas, they lay under the skin, are very painful and leave scars. I use a great skin care range (Environ) which has helped dramatically but it hasn’t dealt with the root of my problem or the scarring.

“I started taking Skin Accumax just over a month ago. I took two capsules daily for a month and although I did see some improvement it wasn’t dramatic.

“I am now on my second packet and have increased to four capsules a day. Wow! My skin has changed dramatically! My scarring looks better after only five days of taking four capsules, there are no raised lumps anymore and my skin has improved a lot.

“My skin also was very sensitive and dry, Skin Accumax has reduced my redness and dehydration as it contains vitamin A! My hair looks better too. I used to wash it every other day and now I can wash it just twice a week.

“For the first time in months my skin is glowing and looks clear and fresh!”
