natural skin regeneration

# Endocare

## natural skin regeneration

The **Endocare** skincare range's unique **SCA Biorepair Technology** harnesses the power of nature to provide scientifically advanced regeneration of ageing and photo-damaged skin.

**SCA Biorepair Technology** is a Natural Growth Factor derived from the natural secretion of the mollusc *Cryptomphallus aspersa*. The secretion has enabled the mollusc to survive thousands of years and periods of extreme trauma such as cold, heat, dryness, chemical change and UV irradiation, challenges that our skin faces every day.

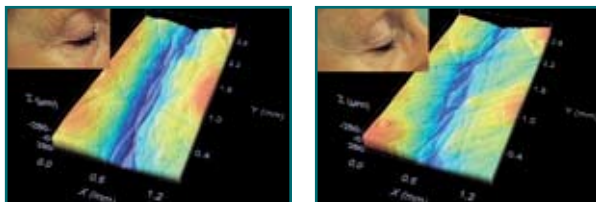

A patented, pharmaceutical-like process results in a naturally derived dermoactive ingredient that harnesses this natural growth-factor regenerative power - **SCA Biorepair Technology**.

**SCA** has been shown to; increase the number and activity of fibroblasts (the skin's generators of collagen, elastin and hyaluronic acid), build the underlying architecture of the skin and provide anti-oxidant activity against skin damaging free radicals.<sup>12</sup>

The Endocare skincare range uses differing concentrations (**Repair Index**) of **SCA Biorepair Technology** in elegant formulations designed for specific areas and treatment needs. Regular and combined use of the range will regenerate the skin and reduce the visible signs of ageing and photo-damage.<sup>3</sup>

### Daily Endocare use significantly improves the clinical signs of photo-ageing<sup>3</sup>

Improvement is seen from the first month

Before treatment

After 90 days

Significant reduction in wrinkle depth is shown after three months

## Daily Intensive Natural Skin Regeneration

### NEW Endocare Tensage Serum 30ml

A creamy, rapidly absorbed serum; non-oily and silky to the touch with intensive skin regenerating and enhancing properties for ageing and damaged skin.

#### Active ingredients

**SCA Biorepair Technology: Repair Index 15;** intensive natural growth factor skin regeneration.

**Tensderm:** Active phytoestrogens and calcium helping re-firm ageing skin.

**Restorative vitamins and antioxidant complex:** Vitamin E, CoQ10plus, Niacinamide.

**Hydrating and enhancing complex:** Hyaluronic acid, squalene and soft focus microspheres.

#### Directions for use

Apply morning and night to cleansed skin as directed by your aesthetic professional, gently massaging until absorbed.

### Endocare Tensage Cream 30ml

A rich, creamy gel specially designed for daily use. Non-oily to the touch and rapidly absorbed, its unique formulation regenerates and enhances ageing and damaged skin.

#### Active ingredients

**SCA Biorepair Technology: Repair Index 6;** advanced natural growth factor skin regeneration.

**Tensderm:** Active phytoestrogens and calcium helping re-firm mature skin.

**Hydronutritive complex:** Hydroxyton 24, Hydroplex and Pentavitin replicate the skin's natural moisturising factors (NMF) to provide intensive and sustained lipid restoration and moisturisation.

#### Directions for use

Apply night time and if required in the morning, to cleansed skin as directed by your aesthetic professional, gently massaging until absorbed.

## Enhancing & Boosting Natural Skin Regeneration

### Endocare Eye & Lip Contour 15ml

A silky lotion specially formulated for daily use to enhance the skin in the delicate eye and lip contour areas, intensively regenerating, smoothing and soothing.

#### Active ingredients

**SCA Biorepair Technology: Repair Index 8;** advanced natural growth factor skin regeneration.

**Hydrating Complex:** Hydroplex and Pentavitin replicate the skin's natural moisturising factors (NMF) to provide intensive and sustained moisturisation.

**Tetrahydrocurcuminoids:** Naturally acting, plant derived, anti-inflammatory agents to help soothe and calm the skin.

**Vitamin E:** Additional anti-oxidant activity to aid skin defence and repair.

#### Directions for use

Apply 1 to 2 times daily as advised by your aesthetic professional to cleansed skin around the eye and lip area, massaging gently in an upwards motion.

### Endocare Ampoules 7 x 1.5ml

A smooth serum in unit dose ampoules for maximum skin boosting regeneration and after-use skin lustre.

#### Active ingredients

**SCA Biorepair Technology: Repair Index 40;**

Ultra-intensive natural growth factor skin regeneration.

**Hydrating Complex:** Hydroplex and Pentavitin replicate the skin's natural moisturising factors (NMF) to provide intensive and sustained moisturisation.

**Restorative vitamin complex:** Vitamin C and Vitamin E complex provides additional anti-oxidant activity to aid skin defence and repair.

#### Directions for use

Carefully open ampoule using protective sleeve and dispense into palm of hand. Apply evenly with fingertips across the face and décolleté. Apply 1 ampoule a day, preferably at night, for 7 days, then 1 ampoule 1 to 2 days every week. The regimen can be intensified or repeated as required. Can be used in conjunction with the Genuine Dermanoller™ home CB device, ask your aesthetic professional for advice.
