Dr. Ruey J. Yu, OMD, PhD, Dermatopharmacologist*

Advance to Healthy, Radiant Skin with the Science of NeoStrata®.

Core Technology Platforms

ALPHA HYDROXY ACIDS

Glycolic Acid, a natural constituent of sugar cane, exfoliates the skin by enhancing cell turnover, evens the distribution of pigmentation, refines the appearance of pore size and helps smooth the look of fine lines and wrinkles. Our Glycolic Acid products deliver optimal efficacy at an ideal pH and concentration. Amphoteric formulations are designed to minimise redness and irritation potential.

4

Citric Acid, found naturally in citrus fruits, is a powerful Alpha/Beta Hydroxy Acid that has preventative antioxidant and corrective antiaging effects, helping to reverse signs of photodamage. It is often used to target specific skin concerns.

Mandelic Acid, found naturally in almonds, is a lipophilic AHA, so it is readily absorbed by oily skin, making its antiaging properties particularly effective in this skin type. Mandelic Acid also has natural antibacterial benefits and reduces oiliness over time without over-drying the skin.

POLYHYDROXY ACIDS

Gluconolactone, a PHA found naturally in the skin, provides full-strength antiaging benefits without irritation, even for patients with clinically sensitive skin or rosacea, or those who have had cosmetic procedures. Gluconolactone strengthens skin's barrier function, reducing sensitivity to irritants and skin redness over time. It helps preserve skin's collagen by reducing glycation. Gluconolactone does not increase the potential for sun sensitivity.

Lactobionic Acid and Maltobionic Acid, patented, non-irritating “Bionic” PHAs derived from natural sugars, help prevent and reverse the appearance of photoaging, including lines and wrinkles, uneven pigmentation, enlarged pores and roughness. The “Bionic” Acids promote firmness by inhibiting the MMP enzyme responsible for degradation of collagen and consequent wrinkling and skin laxity. Natural humectants, they bind water to create a moisturising barrier on skin. Lactobionic Acid is a potent antioxidant used to prevent oxidative damage to transplant organs.

Skin treated with Lactobionic cream for 12 weeks is smoother

AMINO SUGARS/ACIDS

Discovered by NeoStrata®, **Aminofil®** is a revolutionary, patented amino acid derivative that builds skin’s natural volume and visibly reduces the appearance of lines and wrinkles, such as scowl lines, furrows, crow’s feet and smile lines, and provides an all-over effect on visible signs of aging resulting from UV-induced photodamage and repetitive facial expressions.

NeoGlucosamine is a patented non-acid amino sugar technology that gently exfoliates the skin to promote cellular turnover, diminishes fine lines and wrinkles, and exfoliates hyperpigmented spots and acne for a more even skin tone. NeoGlucosamine is also a building block of Hyaluronic Acid, skin’s natural filler, promoting superior plumping of the skin, smoothing the appearance of lines and wrinkles from the inside and creating a firmer, more lifted look.

Skin Care Formulated to Address Specific Patient Needs.

SKIN ACTIVE

Advanced, Comprehensive Antiaging for Skin with Visible Signs of Aging
Ideal for a variety of skin types.

ENLIGHTEN

Advanced Regimen for Uneven Pigmentation
Ideal for patients with hyperpigmentation concerns or uneven skin tone looking for an overall lightening/brightening effect.

RESURFACE

Enhances Skin Clarity and Texture
Ideal for patients with normal skin whose skin aging concerns include: poor surface texture; rough, dull skin; enlarged, congested pores and fine lines and wrinkles.

6

RESTORE

Antiaging Without Irritation
Ideal for patients with sensitive or rosacea-prone skin, or those who have recently had cosmetic procedures who want potent antiaging without irritation.

REFINE

Antiaging for Oily and Blemish-Prone Skin
Ideal for patients with oily, acne-prone skin whose skin aging concerns include: enlarged or clogged pores, dark spots from age or acne, oiliness and excessive shine and fine lines and wrinkles.

TARGETED TREATMENT

Intensive Treatment for Specific Concerns
Ideal for patients with specific concerns including dark under-eye circles, age spots and severely dry skin. Designed to complement a daily skin care regimen.

PROSYSTEM TREATMENT PRODUCTS AND PEELS

Retinol, glycolic, citric and mandelic peels and complementary treatment products.

SKIN ACTIVE

NeoStrata® Skin Active is an advanced, comprehensive antiaging regimen that targets all visible signs of aging with state-of-the-art ingredients.

The effects of aging on skin are multiple: fine lines, wrinkles, discoloration and sagging. No single ingredient can address them all. NeoStrata® Skin Active combines powerful, clinically proven ingredients that work synergistically to help reverse the visible signs of aging. These potent formulations stimulate cell renewal, even tone, help boost collagen and protect against oxidative damage. Lines and wrinkles are smoothed from the inside out.

PREPARE

Exfoliating Wash

125 ml, Item #F30010

8% Gluconolactone, 0.5% Maltobionic Acid

This unique cleanser lightly exfoliates. Polyhydroxy Acids, including patented Maltobionic Acid, enhance skin texture and clarity, while a botanical complex soothes and refreshes. *Soap-free. Suitable for all skin types.*

PROTECT

Matrix Support SPF 30

50 g, Item #F30042

8% NeoGlucosamine

This advanced formulation includes three clinically proven technologies to strengthen skin's support matrix. Peptides help increase collagen,* and patented NeoGlucosamine and Retinol work together to increase firmness and target skin discoloration. An antioxidant complex helps neutralise free radicals while UVA and UVB filters shield skin from everyday sun exposure.

* in vitro test

REPAIR

Cellular Restoration

50 g, Item #F30013

5% Glycolic Acid, 5% Gluconolactone, 5% Maltobionic Acid

This potent formulation is designed to rejuvenate cellular turnover and help rebuild the skin's matrix. Contains Apple Stem Cell Extract to help protect and maintain skin's own essential cells.* Peptides enhance collagen* while Glycolic Acid targets both collagen and glycosaminoglycans to plump and firm skin. Maltobionic Acid, Gluconolactone and Chardonnay Grape Seed Extract work with superfruit antioxidant extracts to protect against daily environmental stressors.

Intensive Eye Therapy

15 g, Item #F30012

6% NeoGlucosamine

This unique formulation employs a multi-mechanistic approach to building and plumping delicate skin in the eye area. It contains Apple Stem Cell Extract to help protect the longevity of skin's own essential cells.* Peptides help stimulate matrix components to trigger more collagen, and together with NeoGlucosamine, reinforce collagen's surrounding support matrix.* Can be safely used on both the eyelid and undereye areas. The eye area appears more lifted, and crow's feet are smoothed from the inside out.

Step 2: 15 g, Item #F30045

2% Aminofil, 5% NeoGlucosamine, 3% NeoCitriate*, 2% Acetyl Hydroxy Proline, 1% Glycolic Acid

This innovative two-step treatment is formulated with patented Aminofil® technology to synergistically build skin's natural volume and visibly reduce the appearance of deep lines and wrinkles (such as scowl lines, furrows, crow's feet and smile lines). This two-step treatment targets these expression lines by volumising the skin's matrix and helping to activate collagen and Hyaluronic Acid, skin's natural fillers.

REPAIR

Firming Collagen Booster

30 ml, Item #F30031

6% NeoGlucosamine, 0.5% Acetyl Amino Acids

This advanced formulation includes three clinically proven technologies to target new and existing collagen, including Gardenia Cell Culture Extract to help increase new collagen.* Peptides help build additional collagen,* and patented NeoGlucosamine reinforces collagen's protective support matrix.* Ideal for reparative nighttime use, either alone or under a moisturiser.

* in vitro test

PROTECT

Antioxidant Defense Serum

30 ml, Item #F30030

3% Maltobionic Acid, 3% Gluconolactone, 2% Citric Acid

This concentrated formulation contains eight powerful multi-action

antioxidants to combat oxidative damage, the leading cause of skin aging resulting from UV exposure.

Patented Bionic and Polyhydroxy Acids trap oxidation-promoting metals and help prevent sun-induced damage. Neutralises the five key free radicals that contribute to photoaging. Ideal for daytime use, layered under a sunscreen.

PREPARE

Ultra Brightening Cleanser

100 ml, Item #F30039

4% NeoGlucosamine, Alpine Plant Extracts

A creamy wash formulated to stimulate cell renewal and gently cleanse. Patented NeoGlucosamine, a non-acid amino sugar, gently exfoliates dark spots and the surface cells that can cause skin to appear mottled and dull. A blend of Alpine Plant Extracts help brighten and clarify the skin. This cleanser effectively removes oil and makeup, leaving the skin healthy and refreshed.

PROTECT

Skin Brightener SPF 25

40 g, Item #F30099

8% NeoGlucosamine, Butyl Resorcinol, SabiWhite®,
Chardonnay Grape Seed Extract, Vitamin E

This daily triple-action moisturiser is formulated with patented NeoGlucosamine to gently exfoliate and encourage cell turnover to break up pigment clusters and diminish the appearance of skin discoloration. Skin brighteners, Butyl Resorcinol and SabiWhite®, target the enzymes involved in pigment production to discourage new spots from forming. Potent antioxidants Chardonnay Grape Seed Extract and Vitamin E work with broad spectrum sunscreen to help prevent environmental and oxidative damage.

PROTECT

Illuminating Serum

30 ml, Item #F30032

4% NeoGlucosamine, Niacinamide, Licorice Extract, 0.1% Butyl Resorcinol,
Alpine Plant Extracts, Vitamin C

This light serum is designed to illuminate and brighten skin that is affected by hyperpigmentation caused by aging, hormonal fluctuations and UV exposure. Contains 12 active brighteners that help break up and reduce the appearance of existing pigmentation and discourage new spots from forming. NeoGlucosamine increases natural cell turnover to exfoliate and fade existing skin discolorations.

REPAIR

Pigment Controller

30 ml, Item #F30040

6% NeoGlucosamine, Retinol, SabiWhite®, Alpine Plant Extracts, Vitamins C and E

An advanced formula with clinically proven technologies to control pigmentation and prevent new dark spots from forming. Synergistic combination of highly active benefit ingredients increases cell turnover and diminishes appearance of skin discoloration. SabiWhite®, a proven alternative to prescription-strength Hydroquinone,* helps prevent new dark spots while Vitamin E protects skin from further damage. Optical diffusers brighten skin instantly.

RESURFACE

NeoStrata® Resurface skin care products are formulated with Alpha Hydroxy Acids (AHAs), which have a remarkable effect on the top level of the skin, or the epidermis. AHAs dissolve the bonds of thickened dead skin cells on the surface of the skin, causing even exfoliation of the upper surface layers to reveal newer, hydrated, healthier skin. Exfoliation at the top layer of the skin leads to increased cell renewal in the middle layers as well.

AHAs have also been shown to affect the deeper layers of the skin by increasing the essential gel matrix and leaving the skin plumper and more hydrated. In this way, AHAs not only work to resurface the top layers of the skin, but also to smooth wrinkles from the inside out. AHAs have been shown to reduce pore size, smooth fine lines and wrinkles and enhance skin clarity and texture.

PREPARE

Foaming Glycolic Wash

100 ml, Item #8205

18% Glycolic Acid, 2% Lactobionic Acid

Our most potent cleanser is formulated in an amphoteric system to capture the benefits of Glycolic and Lactobionic Acid while minimising the potential for irritation. Formulated to gently exfoliate, unclog congested pores, stimulate cell renewal and prepare skin for optimal benefits of the regimen that follows. pH balanced. *Soap-free, fragrance-free. Not recommended for sensitive skin.*

PROTECT

Ultra Daytime Smoothing Cream SPF 20

40 g, Item #F30046

8% Glycolic Acid, 2% Citric Acid, Chardonnay Grape Seed Extract, UVA/UVB Sunscreen, Vitamin E

This daily exfoliating moisturiser provides the benefit of broad spectrum UV protection. The AHA blend helps correct the visible signs of aging during the day, providing a smoother texture, more even pigmentation and improved firmness. *Oil-free, fragrance-free. Non-comedogenic, non-acneogenic.*

20

REPAIR

Ultra Smoothing Cream

40 g, Item #8004

8% Glycolic Acid, 2% Citric Acid

Ideal for new users of Glycolic Acid, this antioxidant exfoliating cream moisturises and restores a visibly smoother appearance to skin. An AHA regimen of this product and Ultra Daytime Smoothing Cream was clinically proven to significantly improve firmness, mottled pigmentation and overall clarity. *Oil-free, fragrance-free. Non-comedogenic, non-acneogenic.*

Clinically graded % improvement after 12 weeks with AHA regimen

REPAIR

Ultra Smoothing Lotion

200 ml, Item #F30085

8% Glycolic Acid, 2% Citric Acid

This lightweight lotion promotes cell turnover and helps to smooth the skin, diminishing the appearance of fine lines, wrinkles and rough skin. Formulated with an AHA concentration that is ideal even for new users, plus our amphoteric complex to provide gentler absorption. *Fragrance-free.*

REPAIR

Face Cream Plus (Step-Up: Level 1)

40 g, Item #8201
15% Glycolic Acid

This powerful cream for normal to dry photodamaged skin is ideal for experienced Alpha Hydroxy Acid users who have demonstrated a tolerance for Glycolic Acid. The product targets the visible signs of aging such as enlarged pores, dullness, fine lines and wrinkles and normalises the surface texture of rough, dry skin. *Fragrance-free.*

REPAIR

High Potency Cream (Step-Up: Level 2)

30 ml, Item #8206
18% Glycolic Acid, 2% Lactobionic Acid, Vitamin E

Our most intensive antiaging night cream is intended for experienced Alpha Hydroxy Acid users who are concerned with both poor texture and loss of tone. Emollient cream formulated for mature, dry skin to exfoliate, moisturise and resurface damaged skin from cumulative UV exposure. *Oil-free, fragrance-free. Non-comedogenic, non-acnegenic.*

REPAIR

Lotion Plus (Step-Up: Level 1)

200 ml, Item #F30086
15% Glycolic Acid

This high-strength lotion is designed for experienced Alpha Hydroxy Acid users who prefer a lightweight formulation. A highly effective exfoliant, this product is recommended for relief of roughness associated with sun damage, hyperkeratosis and keratosis pilaris. *Fragrance-free. Suitable for use on the face and body.*

REPAIR

Smooth Surface Daily Peel

36 daily peels, Item #F30076
10% Glycolic Acid, Aminofil*

This daily home use peel is expertly formulated at an effective pH using a NeoStrata®-developed delivery system for gentle yet optimal skin penetration. Glycolic Acid exfoliates and increases cell turnover to clarify pores, refine skin texture and improve skin tone. Patented, revolutionary Aminofil® builds skin's natural volume and visibly reduces the appearance of fine lines and wrinkles.

RESTORE

NeoStrata® Restore skin care products provide powerful antiaging benefits for patients of all skin types, including those with sensitive skin, atopic dermatitis or rosacea, who are often unable to tolerate topical antiaging treatments. Restore products are also ideal for patients who want to extend or enhance antiaging benefits following a cosmetic procedure. Restore products are formulated with Polyhydroxy Acids such as Gluconolactone and Lactobionic Acid, which strengthen skin's protective barrier, making it less vulnerable to irritants, and reduce skin redness. These PHAs are natural humectants, keeping dry skin well-hydrated, and they are highly stable and powerful antioxidants that help fight the signs of photoaging.

RESTORE

PREPARE

Facial Cleanser

200 ml, Item #F30088

4% Gluconolactone, Pro-Vitamin B5

Our soap-free, fragrance-free formulation gently yet effectively cleanses and exfoliates without drying or stripping the skin. Suitable for all skin types, this product is especially beneficial in conjunction with therapeutic skin regimens, for patients with sensitive skin or those who have recently undergone an in-office procedure such as microdermabrasion, a chemical peel or a non-ablative laser procedure. *Soap-free, fragrance-free. Hypoallergenic.*

Improved clarity after 12 weeks of using cleanser alone

24

PROTECT

Daytime Protection Cream SPF 23

40 g, Item #F30048

8% Gluconolactone, 2% Lactobionic Acid, Chardonnay Grape Seed Extract, UVA/UVB Sunscreen, Vitamin E

Our non-greasy daytime moisturiser both reduces visible signs of aging and helps protect against further damage to the skin. Gluconolactone restores and strengthens the skin's protective barrier, helping to calm irritated skin and reduce redness, while broad spectrum sunscreen defends against future photodamage. Potent antioxidants, including Chardonnay Grape Seed Extract, Gluconolactone and Lactobionic Acid, scavenge harmful free radicals and inhibit elastase to help promote youthful skin and elasticity. *Oil-free, fragrance-free. Non-comedogenic, non-acnegenic.*

Clinically graded % improvement after 12 weeks with PHA regimen

REPAIR

Ultra Moisturizing Face Cream

40 g, Item #8401

10% Gluconolactone, Vitamin E, Evening Primrose Oil

This antioxidant moisturiser helps calm and strengthen the protective barrier of dry, stressed and sensitive skin. As part of a daily PHA regimen, this formula has been shown to reduce skin vulnerability and redness over time, and to significantly improve texture, firmness, lines and overall skin clarity. *Fragrance-free. Hypoallergenic, non-comedogenic, non-acnegenic.*

Clinically proven compatible with concomitant prescription rosacea therapy (Azelaic Acid). Helps reduce telangiectasia, irritation and overall rosacea severity and signs of photoaging. (Draelos et al, J Cos Derm June 2006)

REPAIR

Bio-Hydrating Cream

40 g, Item #8405

15% Gluconolactone, Vitamin E

This ultra-emollient, advanced antiaging cream provides intense hydration and skin-smoothing effects without irritation. Studies prove this cream is exceptionally mild, non-irritating and helps calm irritated skin and reduce redness. *Fragrance-free. Non-comedogenic, non-acnegenic.*

Clinically proven compatible with concomitant prescription retinoid therapy (Tretinoin) for acne. Alleviates dryness without compromising efficacy or increasing irritation. (Grimes et al, Cutis February 2004)

REPAIR

Bionic Lotion

200 ml, pH 3.8, Item #F30089

12% Gluconolactone, 3% Lactobionic Acid, Vitamin E

This antiaging moisturiser is ideal for patients with dry skin who prefer a lightweight lotion. The PHAs in this formula act as humectants, attracting and binding moisture to the skin, as well as powerful antioxidants to help prevent environmental and oxidative damage. Suitable for use on face and body. Clinically shown to improve dryness, redness and flaking associated with eczema. *Fragrance-free. Hypoallergenic.*

RESTORE

REFINE

NeoStrata® Refine skin care products feature several highly effective and clinically proven ingredients to target the unique needs of oily, acne-prone skin as it ages. Glycolic Acid and Gluconolactone are clinically proven to stimulate cell renewal, improve clarity and brightness and reduce the appearance of lines and wrinkles. Mandelic Acid, found naturally in almonds, is a lipophilic AHA that is readily absorbed by oily skin, making its antiaging properties particularly effective for this skin type. It has also been shown to reduce skin oiliness over time. Patented NeoGlucosamine inhibits tyrosinase to help reduce the appearance of age spots and uneven pigment. The result is smoother, clearer and younger-looking skin.

Oil Control Gel

30 g, Item #8315

4% Gluconolactone, 4% Mandelic Acid

Our lightweight, mattifying gel absorbs oil to create a velvety finish, minimising the appearance of pores and controlling shine while it smoothes skin. Gluconolactone gently exfoliates the surface of the skin while Mandelic Acid controls oil and fights *P. acnes* bacteria. *Oil-free, fragrance-free. Non-comedogenic, non-acnegenic.*

REPAIR

Gel Plus

125 ml, Item #F30087

15% Glycolic Acid

This extra-strength formulation is ideal for experienced users of Glycolic Acid and those who prefer a light, non-greasy and fast-absorbing gel suitable for oily, acne-prone skin or hot, humid climates. Glycolic Acid helps correct the visible signs of photoaging such as enlarged pores, uneven texture and pigment. As a highly effective exfoliant, this formula can also be used to help relieve ingrown hairs associated with pseudofolliculitis barbae. *Fragrance-free.*

PASSION FOR SKIN CARE.
PROVEN BY SCIENCE.

NeoStrata®

TARGETED TREATMENT

NeoStrata® Targeted Treatments address a variety of specific skin concerns with breakthrough technology and the power of Polyhydroxy Acids. From age spots, sun protection and dark circles to wrinkles and severely dry skin, our targeted treatments can renew your skin.

TARGETED TREATMENT

SUN PROTECTION

Sheer Physical Protection SPF 50

50 ml, Item #F30100

Titanium Dioxide, Zinc Oxide, Iron Oxide, 4% PHA/Bionic Complex, EGCG Green Tea Extract, Vitamin E

This lightweight, translucent fluid is formulated with all-physical filters, Titanium Dioxide and Zinc Oxide, to provide broad spectrum UVA/UVB protection and defend against UV damage, along with a PHA/Bionic Complex to help preserve skin's natural collagen and firmness. Potent EGCG Green Tea Extract, Lactobionic Acid and Vitamin E work to neutralise free radicals and help preserve healthy DNA. *Oil-free, fragrance-free. Non-comedogenic, non-acnegenic.*

34

SEVERE DRY SKIN

Problem Dry Skin Cream

100 g, Item #8609

20% Hydroxy Acid Blend, Maltobionic Acid, Vitamin E

This rich cream contains a high level of Hydroxy Acids to exfoliate severely dry, rough and thickened skin such as heels, knees and elbows. Significant improvement has been demonstrated in heavily calloused skin in as little as 3 weeks of once-daily use. The highly emollient vehicle of beeswax and skin-conditioning oils helps to instantly reduce skin roughness on contact. Ideal for patients with scaling and flaking associated with hyperkeratosis and keratosis pilaris (rough bumps). *Fragrance-free.*

Significant improvement in dry, calloused heels after 3 weeks of once-a-day use

INTENSE ANTIAGING Renewal Cream

30 g, Item #8319

12% Gluconolactone, Pro-Retinol, Vitamin E

This intensive cream captures the power of two proven antiaging ingredients to help improve severe photoaging with less irritation and redness than prescription retinoids. Gluconolactone and an effective level of Pro-Retinol work synergistically to deliver clinically proven improvements in overall skin texture, pore size and evenness of tone. Skin appears smoother and lines and wrinkles are diminished from the inside out. *Non-comedogenic, non-acnegenic. Not recommended for sensitive skin.*

INTENSE ANTIAGING Bionic Face Serum

30 ml, Item #F30056

10% Lactobionic Acid, Vitamins A, C and E

This concentrated daily-use serum restores skin radiance and amplifies the benefits of other antiaging products across all key photoaging parameters, including fine lines, wrinkles, pore size, laxity and mottled pigmentation. Lactobionic Acid, a potent antioxidant, both builds skin's support matrix and protects it by inhibiting MMP, the enzyme that breaks down collagen. Can be applied to target areas such as eyes or around mouth, as an all-over facial treatment, used alone or layered under other products. *Oil-free, fragrance-free. Hypoallergenic. Ideal for use post-procedure.*

TARGETED TREATMENT

ACNE

Spot Treatment Gel

15 g, Item #8802

2% Salicylic Acid, Triple Alpha Hydroxy Acid Blend of

Acetyl Mandelic Acid, Citric Acid, Tartaric Acid, Pro-Vitamin A

This highly effective gel is formulated with an Alpha Hydroxy Acid (AHA) blend of Acetyl Mandelic Acid, Citric Acid and Tartaric Acid, combined with Salicylic Acid and Pro-Vitamin A to quickly treat acne blemishes and allow skin to heal. *Fragrance-free.*

36

NAILS

Nail Conditioning Solution

7 ml, Item #8803

2% Acetyl Mandelic Acid, Vitamin E

A nail-strengthening treatment solution clinically developed with an Alpha Hydroxy Acid (AHA) derivative to help condition and strengthen brittle and splitting fingernails. *Fragrance-free.*

EYES

Eye Cream

15 g, Item #8404

4% Gluconolactone, Vitamin E, Green Tea Extract, Evening Primrose Oil, Avocado Oil, Sodium Hyaluronate, Pro-Vitamin B5

This effective eye cream is formulated to reduce the appearance of fine lines and wrinkles without irritating the delicate eye area. Gluconolactone helps strengthen skin's protective barrier, so skin is less vulnerable to irritants.

Hyaluronic Acid reduces dryness and maintains a light moisture shield.

Green Tea Extract, Evening Primrose and Avocado Oil soothe delicate skin.

Fragrance-free. Hypoallergenic. Ophthalmologist tested.

EYES

Bionic Eye Cream Plus

15 g, Item #F30007

3% Gluconolactone, 1% Lactobionic Acid, Peptide Blend, Yeast Extract, Pro-Vitamin A and Vitamins E and C

This powerful eye cream strengthens the delicate eye area to help hide dark under-eye circles, while a peptide blend and natural yeast extract diminish dark circles at their source. The advanced, multi-treatment formula gently targets dark circles, puffiness and fine lines. Pro-vitamins A, C and E provide potent antioxidant protection. *Fragrance-free. Ophthalmologist tested.*
