Targeted Treatment

Dermal Replenishment

Patented NeoStrata® Technologies* Help Reverse Dehydration and Visible Signs of Aging

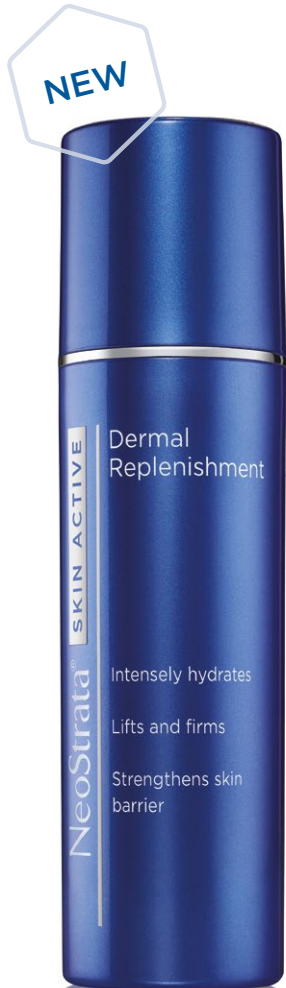

This Unique SynerG Formula 8.5 Contains:

0.5% Patented Aminofil® works with peptides to build skin's natural volume, visibly reducing the appearance of lines and wrinkles.

4% NeoGlucosamine® helps to plump and firm the skin and diminish the appearance of uneven pigment and dark spots.

4% Maltobionic Acid hydrates and protects against environmental free radical damage.

ProdeW® provides amino acids essential for Natural Moisturising Factor to hydrate and reduce moisture loss.

Optimal Hydration + Antiaging

Key Ingredient:	Firming	Plumping (Matrix-Building)	Pigment- Evening	Hydration	Anti- Glycation
Aminofil®	■	■			
NeoGlucosamine®	■	■	■		
Maltobionic Acid	■	■	■	■	■
ProdeW®				■	
Matrixyl® Peptides	■	■			

Visible Results in 4 Weeks†

100% HYDRATED, SMOOTHER SKIN

97% BRIGHTER, MORE LUMINOUS SKIN

91% INCREASED FIRMNESS

† % of respondents reporting at 4 weeks. Data on file, NeoStrata Co., Inc.

*Aminofil®, NeoGlucosamine®, and Maltobionic Acid are NeoStrata's patented technologies. ProdeW® is a registered trademark of Ajinomoto.

Dermal Replenishment A Breakthrough in Antiaging Skin Hydration

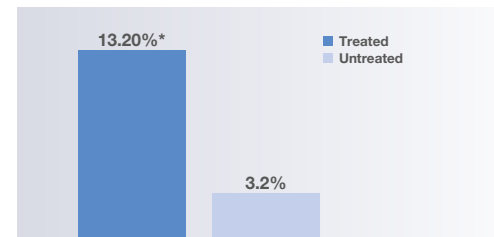

1.

AMINOFIL®

A Novel Amino Acid (Tyrosine) Derivative

- Patented amino acid technology
- Fast volume-building effect in skin's matrix
- Offers unique ability to target deeper lines, folds

Increases Skin Thickness

% increase at 8 weeks vs. baseline

*Mean change is significant vs. baseline $p < 0.05$

Green BA, Edison BL, Brouda I, Gonzalez AD, Santhanam U, Khusial R, Weinkauf RL. A novel tyrosine amino acid derivative as a topical wrinkle filler. *J Am Acad Dermatol* 2012;66 (4):AB20.

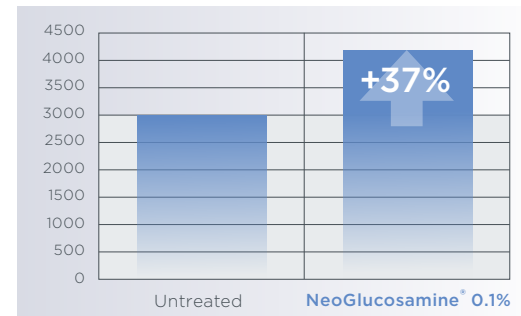

2.

NEOGLUCOSAMINE®

Provides a Pigment-Evening Effect and Plumps the Skin

- Inhibits tyrosinase, the key enzyme in the production of melanin
- Enhances cell turnover to exfoliate existing pigmented spots
- Increases hyaluronic acid

Increases Hyaluronic Acid Production in Human Fibroblast Cell Culture Media

Data on file, NeoStrata Co., Inc.

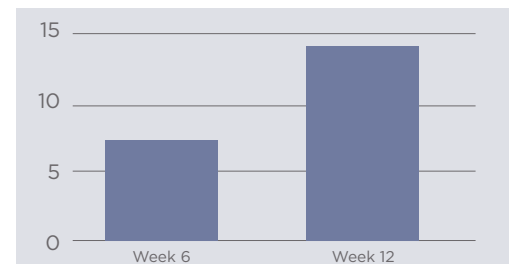

3.

MALTOBIONIC ACID

Potent Antiaging Polyhydroxy Acid

- Significantly increased firmness/elasticity at 6 and 12 weeks compared to baseline
- Protects against free radical damage

Increases Elasticity (Pinch Recoil/Firmness)

Mean relative % improvement (compared to baseline)

Poster, 64th AAD Meeting, March 2006

4.

PRODEW®

Replenishes Natural Moisturising Factor (NMF)

- Pro Dew® is a highly effective moisturizer formulated with eight amino acids found naturally in skin's Natural Moisturising Factor (NMF)
