

## NeoStrata Anti-Ageing & Photo-ageing Protocol

Neostrata products have been developed to help improve skin structure, skin tone and appearance and to soften fine lines and wrinkles.

AM/PM  
CLEANSE

**Facial cleanser** – to wash away all traces of dirt and makeup

Or

**Foaming glycolic cleanser** - deep cleanser with 18% Glycolic acid and 2% Lactobionic acid (Recommended for experienced Glycolic Acid users)

AM/PM

**Bionic Face Serum** - Anti-aging treatment serum with Lactobionic acid plus a triple antioxidant complex of vitamins to reduce the appearance of lines, wrinkles and uneven pigmentation. Follow with moisturiser.

MOISTURISE

AM

**Ultra Daytime Smoothing Cream SPF 15** - Antioxidant day cream with Glycolic Acid and Citric acid to reduce the look of lines and wrinkles and provide broad spectrum UVA/UVB protection

PM

**Ultra moisturising smoothing cream** or **ultra moisturising face cream** or **bio hydrating cream**

Face cream plus, Renewal cream is recommended for anyone with normal skin, extreme sun damage or hyperpigmentation

## NeoStrata oily Skin Acne Prone Protocol

Neostrata products use exfoliating AHA ingredients to help fight acne, control oil production and make acne less visible.

AM/PM  
CLEANSE

**Clarifying cleanser** - a professional-strength, soap-free cleanser with the broad spectrum antibacterial agent Triclosan.

AM/PM  
TREAT

For very oily skin, **Oil control gel** helps dry and gently exfoliates the skin and minimizes the appearance of pores.

Treat breakouts with **Spot treatment gel** - a highly effective treatment containing pro-retinol, 2% salicylic acid and a multi hydroxyacid complex. This gel quickly penetrates pores, helping to eliminate acne blemishes, pimples, blackheads and whiteheads while allowing the skin to heal.

AM

MOISTURISE

For balanced moisturised skin use the **Oil free lotion SPF15** as it's light composition means it is perfect for oily skin and for use when in humid climates. Helps control oil and hydrate the skin while offering broad spectrum (UVA/UVB) sunscreen protection.

PM

**Renewal cream** (accelerator)

This intensive anti-aging cream is formulated with 12% gluconolactone (PHA) and Pro-Retinol (Retinyl Acetate) to visibly reduce fine lines and wrinkles and improve uneven skin tone and sun damage. Smooths skin and enhances clarity.

To help clear blemishes and prevent further acne breakouts apply **Oily skin solution** after cleansing. 8% Glycolic Acid skin toner helps stimulate cell turnover and prevent clogged pores, preparing the skin for day and night products.

## NeoStrata Sensitive / Rosacea Prone Protocol

Neostrata products are suitable for all skin types including sensitive skin. The clinically proven products, including PHA's, help rosacea and eczema.
