MULTI-FACETED USES POST TEMPORARY
SKIN REACTIVITY:

TESTED POST FRAHEL LASER TREATMENT

PROVEN TECHNOLOGY

Phyto Corrective Masque delivers calming and cooling comfort to skin while restoring radiance and leaving skin feeling hydrated.

MULTI-FACETED USES POST TEMPORARY SKIN REACTIVITY

DAILY

Delivers intensive calming and cooling comfort to soothe skin sensitivity

WEEKLY/SEASONALLY

Reduces uncomfortable skin tightness and leaves skin feeling hydrated after exposure to external aggressors

POST-PROCEDURE

Tested effective post Fraxel Laser treatment for reduction in visual redness and discomfort

TESTED EFFECTIVE POST-PROCEDURE

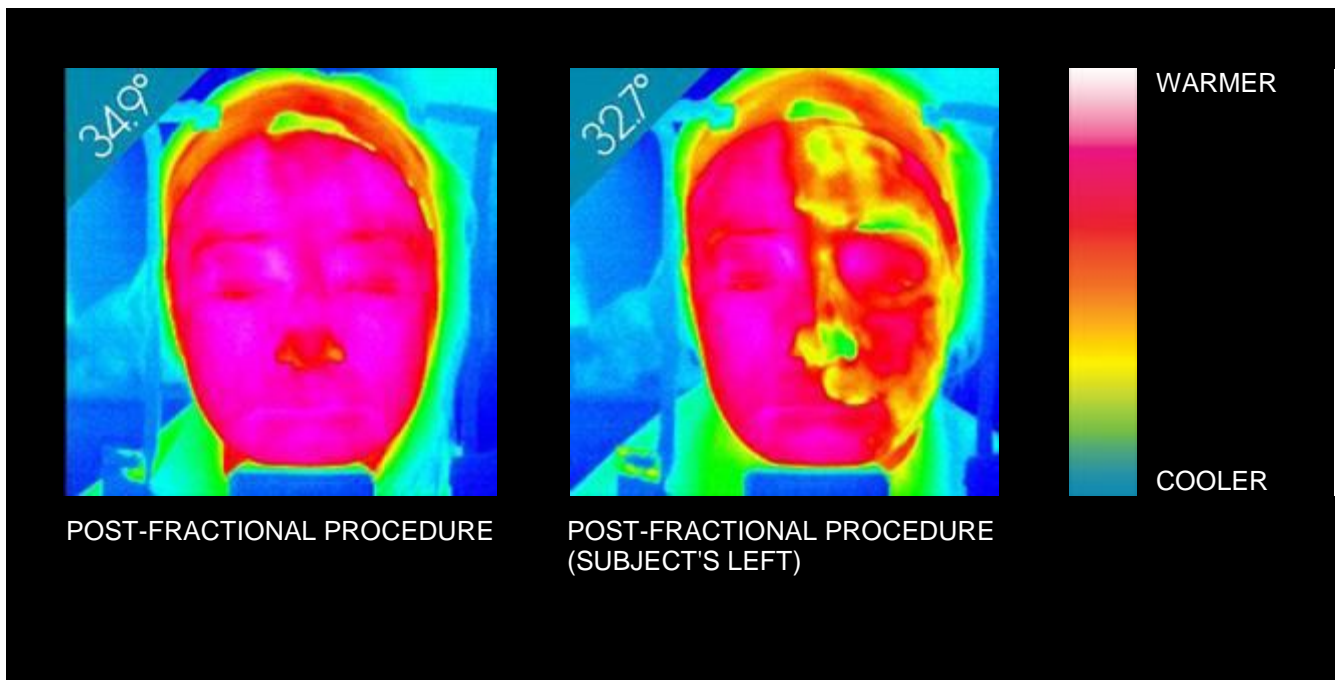

POST-FRAXEL LASER STUDY

-20% in clinical grading scale for REDNESS

-47% reduction in DISCOMFORT immediately post-use

THERMAL IMAGING OF FACIAL SKIN

-2.8°C average reduction in skin surface temperature in clinical study

Protocol: A dermatologist-controlled split-face clinical study on 30 female subjects ages 18-65. Phyto Corrective Masque was applied to one randomized facial half following full-face fraxel laser procedure. After 15 minutes the full face was rinsed with water and patted dry.
