

# It works – here’s how

Silicone has long been used in the medical world to treat scarring. Now, Wrinkles Schminkles has harnessed the power of silicone, so you can use it at home to treat your wrinkles. Once you use our Wrinkles Schminkles Silicone Pads, you’ll experience the instant gratification of wrinkle-relieving renewal of your chest, décolleté, neck, décolletage and face – right before your eyes.

## **3-STEP AGE-DEFYING PRODUCT RANGE**

### **1. Silicone Pads**

Our 3-step product range revolves around our hero products – Wrinkles Schminkles Silicone Pads to treat and prevent wrinkles while you sleep. The Chest Smoothing Kit, Decolletage Smoothing Kit, Neck Smoothing Kit, Mouth Smoothing Kit and Forehead and Eye Smoothing Kit, all include Silicone Pads designed especially to treat and prevent wrinkles for those parts of your body. You wear them while you sleep and simply peel them off in the morning to start your day with smooth skin.

During the night, the placement of the pads – as well as the properties of the silicone itself – leaves your skin unable to crease. When you say goodnight to creases, you say goodbye to wrinkles too.

Especially perfect for us side-sleepers!

**Peel. Stick. Sleep.**

### **2. Cleaning Solution**

Wrinkles Schminkles Cleaning Solution is specially-formulated to clean your Silicone Pads, without breaking down the all-important adhesive that holds them in place throughout the night. Just rinse the pads under warm water with 1-2 pumps of the solution and dry them, ‘face’ up, to bring the ‘sticky’ back to life. Easy. They are ready to use – again and again.

**Peel. Stick. Sleep. Wash.**

### **3. Morning After Glow Serum**

Your chest, décolleté, décolletage and neck are vulnerable parts of your body that are often neglected (and tend to give away your age). Good morning Morning After Glow Serum! You apply the serum in the morning and the powerful blend of wrinkle-fighting anti-oxidants and essential fatty acids does its stuff - plumping those fine lines and wrinkles to help you start each new day with confidence.

**Peel. Stick. Sleep. Wash. Glow.**

## **HOW OUR SILICONE PADS WORK**

Sometimes, the simple things in life really are the best.

When it comes to maintaining youthful-looking skin, we're fans of the practical approach. Sure, there are costly laser treatments and other more invasive treatments to treat wrinkles on your chest, décolletage and décolleté area but...with Wrinkles Schminkles, we keep it simple.

It costs less. It doesn't hurt. And it's easy to understand.

### **Why it works**

1. No creases = no wrinkles.

When you apply our **Silicone Pads**, your skin cannot crease to cause wrinkles. The pads (approximately 2mm thick) are kept in place – comfortably and securely – using the convenience of adhesive silicone. It's that simple.

2. Silicone creates moisture.

Doctors use silicone sheets to prevent and treat the appearance of existing scars. Wrinkles Schminkles Silicone Pads work the same way - adding extra moisture to your skin to plump and flatten your pesky wrinkles.

3. Silicone stimulates collagen

Lines on your skin, such as scars, are caused by under and over-production of collagen. Silicone sheeting helps prevent and reduce scarring. At Wrinkles Schminkles, we've applied that concept to our silicone pad designs – delivering visibly softer wrinkles, while you sleep.

Your dreams just got a whole lot sweeter.
